[github.com/ZennyFZ](https://github.com/ZennyFZ) • [zenny-dev.vercel.app](https://zenny-dev.vercel.app)

Front-end & Mobile Developer with hands-on experience building web and mobile applications using ReactJS, NextJS, React Native, and TypeScript. Oriented toward becoming a flexible Fullstack Developer, with strong self-learning ability, independence, and familiarity with Git, API integration, and Agile environments.

## EDUCATION

**Bachelor of Software Engineering**  
FPT University

Oct 2020 - Oct 2024

## SKILLS

**Languages:** HTML, CSS, Javascript, Typescript, Java

**Databases:** Microsoft SQL, MySQL, MongoDB

**Librabries/Framework:** ReactJS, React Native, NextJS, ExpressJS, ElysiaJS, Sass, Tailwind, Bootstrap

**Other:** Git, Trello, Figma, Postman, Microsoft Office, Adobe Photoshop, Magix Vegas

## WORK EXPERIENCE

**Fullstack Developer**  
Doujinshi Thu Cac

Jan 2025 - Present  
Vietnam

- Designed and developed Hientai Truyen, a full-stack web application for online manga reading, featuring a clean, user-friendly interface and an extensive manga library
- In addition, built an internal admin dashboard for efficient manga and chapter management
- Tech stack includes Next.js, TypeScript, Tailwind CSS, Elysia.js, and MongoDB, deployed via Vercel and Render.

**Generative AI Evaluator**  
Appen

Oct 2024 - Present  
United States

- Crafted prompts across diverse topics to test AI model performance on various dimensions
- Evaluated generated responses by rating specific quality signals
- Provided enhancements or actionable suggestions to improve output quality.

**Social Media Evaluator**  
Telus International

Aug 2022 - Dec 2023  
Canada

- Assessed text, web pages, images, and other digital content for relevance, quality, and compliance with guideline requirements
- Evaluated the usefulness and accuracy of search results based on predefined standards.

**Front-end Developer Intern**  
FPT Software

May 2023 - Aug 2023  
Vietnam

Participated in on-the-job training to gain expertise in software process development, contributed to website development using ReactJS and TypeScript, adhering to established style guidelines.

## PROJECTS

**Hientai Truyen** [↗](#)

Mar 2025 - Present

- Designed and developed Hientai Truyen, a full-stack web application for online manga reading, featuring a clean, user-friendly interface and an extensive manga library.
- In addition, built an internal admin dashboard for efficient manga and chapter management.
- Tech stack includes Next.js, TypeScript, Tailwind CSS, Elysia.js, and MongoDB, deployed via Vercel and Render.

**CiStudy (Graduation Project)** [↗](#)

May 2024 - Aug 2024

- Developed frontend and mobile interfaces for CiStudy — an interact-to-earn blockchain-based learning platform where users can buy or create courses, and earn rewards through active participation in course forums
- Modern tech stack including Next.js, React Native, NestJS, GraphQL, MySQL, and Metamask integration, with deployment using Vercel, AWS, Docker, and Nginx.

**ELibrary** [↗](#)

Jan 2024 - Apr 2024

- Contributed as a Backend and Mobile Developer to ELibrary — an eBook platform with online reading, payment integration, and AI-enhanced tools like translation and summarization.
- Built with ReactJS, React Native, ExpressJS, MongoDB, and OpenAI.
